nyc pied a terre renovation by richard rabel interiors + art

As for the galley kitchen, the counter space was substantially increased by adding open, oak-stained shelves – the same color as the main room’s oak floor for continuity – over and under a new stainless steel counter that mirrors the sink opposite, and ties the entire tiny kitchen together.

This NYC pied-a-terre project turned out to be a very pleasant one to work on. It’s the difference between night and day when you work with a client who trusts your instincts. In the end, it’s what I call “hands-off” collaboration – it’s not quite carte blanche, but it’s as close as it gets these days!!!!

Richard Rabel is a New York Interior Designer and Principal at Richard Rabel: Interiors+ Art, a studio offering residential design, decorating and art advising.

MERCER WALL SCONCE

Brand: [Marset](#)

The Mercer Wall Sconce features a fusion of different materials achieving a spectacular result. Light is diffused through the the cotton ribbon shade and an opal diffuser disc that floats on the bottom of the lamp. . The cotton shade floats inside a transparent blown glass structure, and is available in pleated white, or flat pearl white cotton. (Designer: Javier M. Borrás & Joan Gaspar, 2009)
