

*SISTEMA*TM

We at VICCARBE have dreamed for years of creating a different type of sofa, unlike anything seen on the market.

Our vision has been a very ambitious one, we want to be the first company to create not only a sofa but a complete system composed of independent elements. So, for the first time the client can compose and adapt a sofa using imagination to suit his or her taste, needs and requirement.

There will be a range of different arms, backrest, seats and accessories to choose from. These elements will be expanded with newly developed components each year, thereby creating an innovative concept that adapts to every situation, never seen before.

We are very interested to see how many compositions our clients will create and adapt to suit a home or contract environment.

Having our idea patented, the next step was to decide which designer we want to collaborate with to bring to life the sensitivity and elegance, to create the independent elements which would combine harmoniously together with each other.

For a long time we have admired the Lievore Altherr Molina design team. Their care and detail for proportion have made them a leader in creating masterpieces... so for us the decision to collaborate with them was easy, and they were no less than perfect for this project.

Lievore Altherr Molina is a product design consulting and art direction, international studio.

Was created in 1991 by the merging of its three partners: Alberto Lievore, Jeannette Altherr and Manel Molina. Since its founding, the studio has been devoted to product design, consulting and the art direction of various companies, always offering individualised solutions.

The studio has been recognised for its furniture design, its interior design projects, its products, and packaging. Simultaneously, the studio has developed an intense teaching practice, giving seminars and training courses to new professionals at various Spanish universities and other organisations.

Simultaneously, the studio has developed an intense teaching practice, giving seminars and training courses to new professionals at various Spanish universities and other organisations.

The studio has been awarded many national and international awards, including Spain's National Design Award in 1999. Lievore Altherr Molina has exhibited their work in Barcelona, Cologne, Chicago, Stockholm, Helsinki, Lisbon, London, Louisiana, Madrid, Malmö, Milan, New York, Paris and Tokyo.

Their ideas and projects are regularly published in the most prestigious design magazines around the world.
