Il velluto è un tessuto pregiato e compatto, riconoscibile per la sua superficie morbida e liscia al tatto. Il sottile strato di pelo che lo caratterizza ne esalta la profondità cromatica e dona una sensazione di calore e comfort. Realizzato con un ordito di fondo e un ordito supplementare tagliato, il velluto si distingue per la sua lucentezza e per l'eleganza che conferisce a ogni rivestimento.

Velvet is a refined, compact fabric distinguished by its smooth and soft surface. The fine layer of pile enhances its color depth while providing a warm and comfortable feel. Crafted with a ground warp and a supplementary cut warp, velvet stands out for its natural sheen and the timeless elegance it lends to any upholstery.
