The Larbus is that classic table that will make any interior come to life. A firm and reliable shape that's made entirely out of solid oak, one of the strongest woods, expertly handmade into a table that's built to last.

"A typical characteristic of furniture made from natural wood is the potential for resin leakage, particularly from the underside of the piece. To prevent issues such as staining or resin absorption, we recommend avoiding placing new wood furniture on carpets or soft surfaces that limit ventilation, especially during the first few months after purchase. For best results, keep the furniture in a dry and well-ventilated area to allow the wood to acclimate properly."
