

MESSÀPO

Shelf

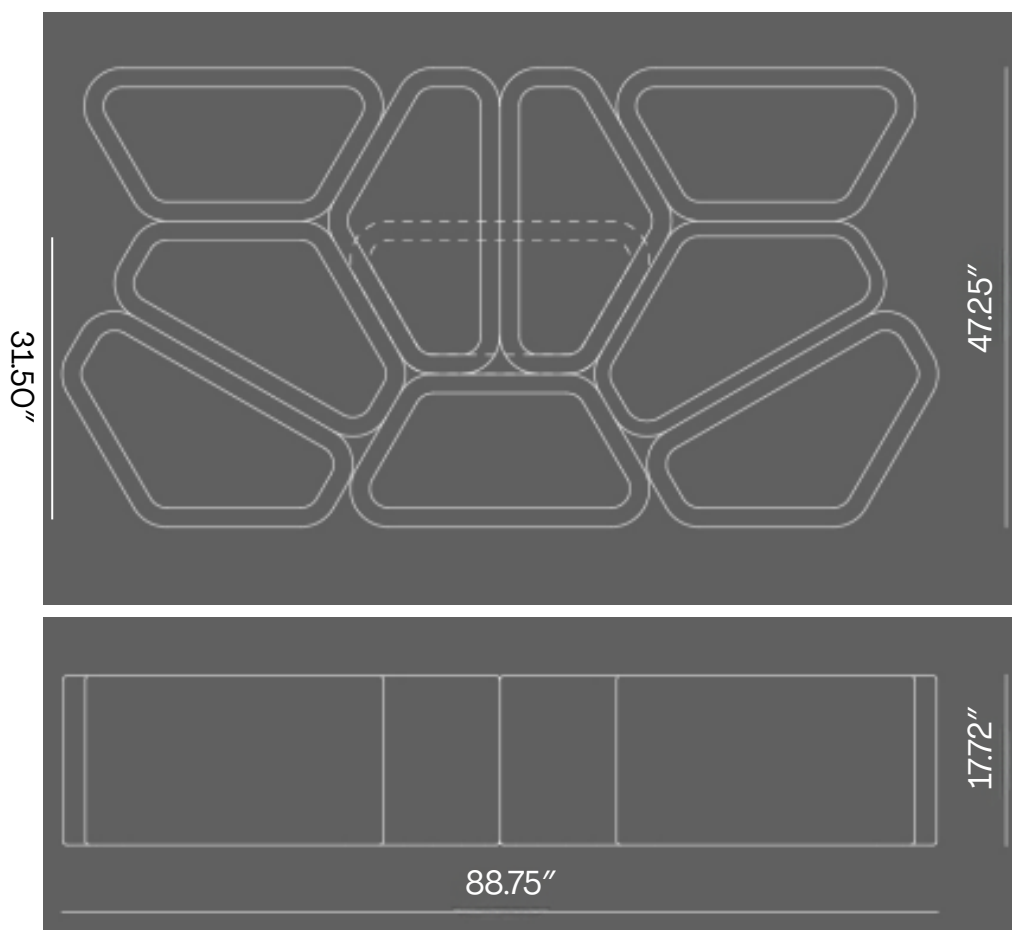

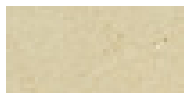

SKU: PIMOAR-501-MESSAPO SHELF

The series of modular elements making up the Messàpo Collection is inspired by the dry stone walls typical of the Salento countryside. Designed for indoor and outdoor use, this project consists of two types of modules which may be assembled, disassembled or rotated. Modularity enables users to design their own living space: it is possible to create different functional structures to furnish with style living areas, receptions, gardens or community spaces, while giving new functions to the product. Studied on the grounds of anthropometric parameters, the modules meet the intent of the project to create the ideal conditions for a free and creative fruition, through an intuitive use.
