

Piro

Brazier

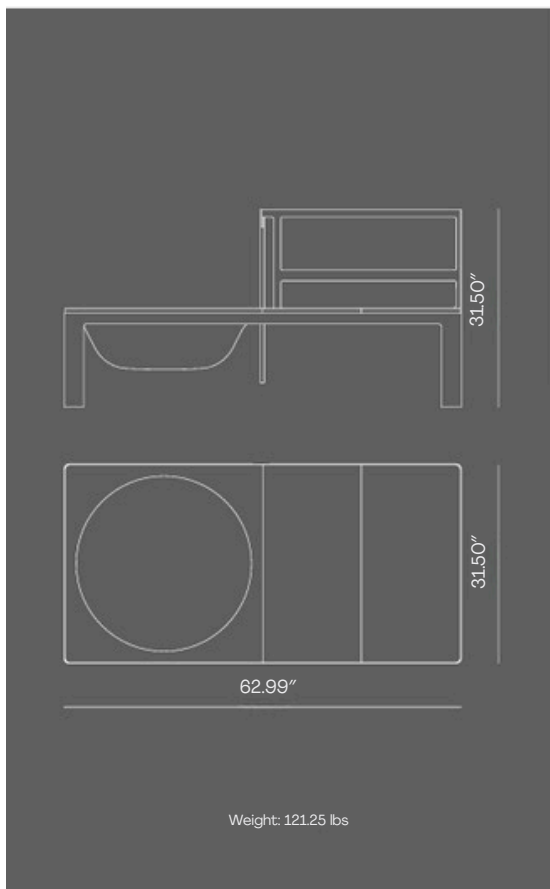

SKU: PIMOAR-601-PIRO BRAZIER

The Piro collection, consisting of a brazier, a convenient side table and a vase, is designed with the intent to create a micro environment around the fire. The central element of the collection is a hybrid object, performing the functions of brazier, flat top surface and seat. With a series of slender lines, the metal frame not only defines the object, but also the space around the fire, and highlights the impacting presence of stone. Together, they define a multi-functional space in which to socialize, place objects and hang things up
